The following communication from City Comptroller Shannon was read, and, after a brief discussion, was referred to the finance committee:

"The increase in expenditures during the above period over 189t have been heavy, the fire department, on account of the confirmation of regular fremen; the police department, on account of additional officers; the excesses in the hospital and guidepartments, including fire and police departments, angregating \$8,020.

"The excessive expenditures in departments named have so reduced the amounts so apportioned that a reduction must be made at once, to avoid incurring liabilities that cannot be paid for lack of funds, and the course so essential to the city credit and so rigidly enjoined by the city charter. "The Sition of the expense account is anything out flattering, only \$5.65 remaining available out of \$59.69 surplus, and collections amounting to \$15.125, after annual apportionment of \$24.662. Yet, notwithstanding these conditions, it has become a habit of some of the department officers and members of the council to persistensity appropriate money out of the expense department and in cases without warrant of law.

"The receipts from miscellaneous liceuses amounted to \$7.171 less than same period of last year, of which \$4.598 was from dramshops alone. Receipts of police court fines is \$1.261, \$261 less than last year for the same period.

"Trusting that your honorable body will take such action in the matter as the treasury imperatively demands, I am, yours very respectfully.
